EX PARTE REEXAMINATION COMMUNICATION TRANSMITTAL FORM

REEXAMINATION CONTROL NO 90/008775

PATENT NO. 4,935,184

ART UNIT 3992

Enclosed is a copy of the latest communication from the United States Patent and Trademark Office in the above identified ex parte reexamination proceeding (37 CFR 1.550(f)).

Where this copy is supplied after the reply by requester, 37 CFR 1.535, or the time for filing a reply has passed, no submission on behalf of the ex parte reexamination requester will be acknowledged or considered (37 CFR 1.550(g)).

Order Granting / Denying Request For Ex Parte Reexamination	Control No. 90/008,775	Patent Under Reexamination 4935184	
	Examiner Alan Diamond	Art Unit 3991	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

The request for *ex parte* reexamination filed 30 July 2007 has been considered and a determination has been made. An identification of the claims, the references relied upon, and the rationale supporting the determination are attached.

Attachments: a) ☐ PTO-892, b) ☒ PTO/SB/08, c) ☐ Other: _____

1. ☒ The request for *ex parte* reexamination is GRANTED.

RESPONSE TIMES ARE SET AS FOLLOWS:

For Patent Owner's Statement (Optional): TWO MONTHS from the mailing date of this communication (37 CFR 1.530 (b)). **EXTENSIONS OF TIME ARE GOVERNED BY 37 CFR 1.550(c).**

For Requester's Reply (optional): TWO MONTHS from the **date of service** of any timely filed Patent Owner's Statement (37 CFR 1.535). **NO EXTENSION OF THIS TIME PERIOD IS PERMITTED.** If Patent Owner does not file a timely statement under 37 CFR 1.530(b), then no reply by requester is permitted.

2. ☐ The request for *ex parte* reexamination is DENIED.

This decision is not appealable (35 U.S.C. 303(c)). Requester may seek review by petition to the Commissioner under 37 CFR 1.181 within ONE MONTH from the mailing date of this communication (37 CFR 1.515(c)). **EXTENSION OF TIME TO FILE SUCH A PETITION UNDER 37 CFR 1.181 ARE AVAILABLE ONLY BY PETITION TO SUSPEND OR WAIVE THE REGULATIONS UNDER 37 CFR 1.183.**

In due course, a refund under 37 CFR 1.26 (c) will be made to requester:

- a) ☐ by Treasury check or,
b) ☐ by credit to Deposit Account No. _____, or
c) ☐ by credit to a credit card account, unless otherwise notified (35 U.S.C. 303(c)).

Page 2

Decision on Reexamination Request

1. A substantial new question of patentability affecting claims 1, 2, 4, and 6-10 of United States Patent Number 4,935,184 to Sorensen, is raised by the request for *ex parte* reexamination. The request for reexamination is Third Party requested.
2. Since requestor did not request reexamination of claims 3 and 5 and did not assert the existence of a substantial new question of patentability (SNQ) for such claims (see 35 U.S.C. § 302); see also 37 CFR 1.510b and 1.515), such claims will not be reexamined. This matter was squarely addressed in *Sony Computer Entertainment America Inc., et al v. Jon W. Dudas*, Civil Action No. 1:05CV1447 (E.D.Va. May 22, 2006), Slip Copy, 2006 WL 1472462. The District Court upheld the Office's discretion to not reexamine claims in a reexamination proceeding other than those claims for which reexamination had specifically been requested. The Court stated:

"To be sure, a party may seek, and the PTO may grant, ...review of each and every claim of a patent. Moreover, while the PTO in its discretion may review claims for which ... review was not requested, nothing in the statute compels it to do so. To ensure that the PTO considers a claim for ... review, ...requires that the party seeking reexamination demonstrate why the PTO should reexamine each and every claim for which it seeks review. Here, it is undisputed that **Sony** did not seek review of every claim under the '213 and '333 patents. Accordingly, **Sony** cannot now claim that the PTO wrongly failed to reexamine claims for which **Sony** never requested review, and its argument that AIPA compels a contrary result is unpersuasive."

Extension of Time

3. Extensions of time under 37 CFR 1.136(a) will not be permitted in these proceedings because the provisions of 37 CFR 1.136 apply only to "an applicant" and not to parties in a reexamination proceeding. Additionally, 35 U.S.C. 305 requires that

Application/Control Number: 90/008,775
Art Unit: 3991

Page 3

ex parte reexamination proceedings "will be conducted with special dispatch" (37 CFR 1.550(a)). Extensions of time in *ex parte* reexamination proceedings are provided for in 37 CFR 1.550(c).

Substantial New Question of Patentability (SNQ)

4. The presence or absence of a "substantial new question of patentability" determines whether or not reexamination is ordered.

For a "substantial new question of patentability" to be present, it is only necessary that :

A) the prior art patents and/or printed publications raise a substantial new question of patentability regarding at least one claim, i.e., the teaching of the (prior art) patents and printed publications is such that a reasonable examiner would consider the teaching to be important in deciding whether or not the claim is patentable; and

B) the same question of patentability as to the claim has not been decided by the Office in a previous examination of the patent or in a final holding of invalidity by the Federal Courts in a decision on the merits involving the claim.

A SNQ may be based solely on old art where the old art is being presented/viewed in a new light, or in a different way, as compared with its use in the earlier concluded examination(s), in view of a material new argument or interpretation in the request. (MPEP 2242).

Application/Control Number: 90/008,775
Art Unit: 3991

Page 4

Request

5. The request indicates the Requestor considers that Moscicki (U.S. Patent 3,178,497) raises a substantial new question of patentability with respect to claims 1, 4, 6-8 and 10 of Sorensen.

It is agreed that consideration of Moscicki raises a substantial new question of patentability as to claims 1, 4, 6-8 and 10 of Sorensen. Page 28, line 14 through page 32, seventh line from the bottom; page 56 at the start of section 8 through page 58, line 5; page 83, line 13 through page 86, line 9; page 86, line 22 through page 87, line 22; page 94, lines 1-19; page 98, line 6 through page 99, line 2; and page 107, line 18 through page 108, line 11, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Moscicki that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 4, 6-8 and 10 of Sorensen were patentable.

Accordingly, Moscicki raises a substantial new question of patentability as to claims 1, 4, 6-8 and 10, which question has not been decided in a previous examination of the Sorensen patent.

6. The request indicates the Requestor considers that Seima (GB 2004494 A) raises a substantial new question of patentability with respect to claims 1, 2 and 6-10 of Sorensen.

Application/Control Number: 90/008,775
Art Unit: 3991

Page 5

It is agreed that consideration of Seima raises a substantial new question of patentability as to claims 1, 2 and 6-10 of Sorensen. Page 32, sixth line from the bottom, through the end of page 36; page 60, fifth line from the bottom, through page 62, line 3; page 80, line 10 through page 83, line 12; page 88, line 13 through page 89, line 15; page 95, line 13 through page 96, line 9; page 99, line 15 through page 100, line 11; page 104, line 1 through page 107, line 4; and page 109, lines 1-20, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Seima that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 2 and 6-10 of Sorensen were patentable. Accordingly, Seima raises a substantial new question of patentability as to claims 1, 2 and 6-10, which question has not been decided in a previous examination of the Sorensen patent.

7. The request indicates the Requestor considers that Gits (U.S. Patent 2,863,241) raises a substantial new question of patentability with respect to claim 1 of Sorensen.

It is agreed that consideration of Gits raises a substantial new question of patentability as to claim 1 of Sorensen. Page 37, line 1 through the end of section 3 on page 40, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Gits that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood

Application/Control Number: 90/008,775

Page 6

Art Unit: 3991

that a reasonable examiner would consider this teaching important in deciding whether or not claim 1 of Sorensen was patentable. Accordingly, Gits raises a substantial new question of patentability as to claim 1, which question has not been decided in a previous examination of the Sorensen patent.

8. The request indicates the Requestor considers that Shiho *et al* (U.S. Patent 4,440,820, hereinafter "Shiho") raises a substantial new question of patentability with respect to claims 1, 6-8 and 10 of Sorensen.

It is agreed that consideration of Shiho raises a substantial new question of patentability as to claims 1, 6-8 and 10 of Sorensen. The beginning of section 4 on page 40 through the end of section 4 on page 44; page 90, lines 4-20; page 96, line 23 through page 97, line 6; page 101, lines 1-11; and page 110, lines 14-23, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Shiho that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 6-8 and 10 of Sorensen were patentable. Accordingly, Shiho raises a substantial new question of patentability as to claims 1, 6-8 and 10, which question has not been decided in a previous examination of the Sorensen patent.

Application/Control Number: 90/008,775
Art Unit: 3991

Page 7

9. The request indicates the Requestor considers that JP 60-119520 U to Toyota Motor (hereinafter "Toyota") raises a substantial new question of patentability with respect to claim 1 of Sorensen.

It is agreed that consideration of Toyota raises a substantial new question of patentability as to claim 1 of Sorensen. The beginning of section 5 on page 44 through the end of section 5 on page 48; and page 70, line 1 through page 71, line 8, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Toyota that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claim 1 of Sorensen was patentable. Accordingly, Toyota raises a substantial new question of patentability as to claim 1, which question has not been decided in a previous examination of the Sorensen patent.

10. The request indicates the Requestor considers that German Published Patent Application No. 1850999 to Echterholter raises a substantial new question of patentability with respect to claim 1 of Sorensen.

It is agreed that consideration of Echterholter raises a substantial new question of patentability as to claim 1 of Sorensen. The beginning of section 6 on page 48 through page 53, line 6; and page 73, line 10 through page 74, line 17, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Echterholter that was not present in the prosecution of the

Application/Control Number: 90/008,775
Art Unit: 3991

Page 8

application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claim 1 of Sorensen was patentable. Accordingly, Echterholter raises a substantial new question of patentability as to claim 1, which question has not been decided in a previous examination of the Sorensen patent.

11. The request indicates the Requestor considers that Wright, "New vigor for two-shot molding automation... versatility... ingenuity," Modern Plastics, May 1986, pp. 79-83, (hereinafter "Modern Plastics") raises a substantial new question of patentability with respect to claims 1, 6 and 8 of Sorensen.

It is agreed that consideration of Modern Plastics raises a substantial new question of patentability as to claims 1, 6 and 8 of Sorensen. Page 53, line 7 through the end of section 7 on page 56; page 77, line 1 through page 78, line 8; page 92, line 9 through page 93, line 12; and page 102, line 16 through page 103, line 11, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Modern Plastics that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 6 and 8 of Sorensen were patentable. Accordingly, Modern Plastics raises a substantial new question of patentability as to claims 1, 6 and 8, which question has not been decided in a previous examination of the Sorensen patent.

Application/Control Number: 90/008,775
Art Unit: 3991

Page 9

12. The request indicates the Requestor considers that Moscicki in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability with respect to claims 1, 4, 6-8 and 10 of Sorensen.

It is agreed that consideration of Moscicki in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability as to claims 1, 4, 6-8 and 10 of Sorensen. Page 58, line 6 through the end of section 9 on page 60; page 86, lines 10-21; page 88, lines 1-12; page 95, lines 1-12; page 99, lines 3-14; and page 108, lines 12-23, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Moscicki, Echterholter and Modern Plastics that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 4, 6-8 and 10 of Sorensen were patentable. Accordingly, Moscicki in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability as to claims 1, 4, 6-8 and 10, which question has not been decided in a previous examination of the Sorensen patent.

13. The request indicates the Requestor considers that Seima in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability with respect to claims 1 and 6-10 of Sorensen.

It is agreed that consideration of Seima in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability as to claims 1 and

Application/Control Number: 90/008,775
Art Unit: 3991

Page 10

6-10 of Sorensen. Page 62, line 4 through page 64, line 3; page 89, line 16 through page 90, line 3; page 96, lines 10-22; page 100, lines 12-24; page 107, lines 5-17; and page 110, lines 1-13, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Seima, Echterholter and Modern Plastics that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1 and 6-10 of Sorensen were patentable. Accordingly, Seima in view of Echterholter and further in view of Modern Plastics raises a substantial new question of patentability as to claims 1 and 6-10, which question has not been decided in a previous examination of the Sorensen patent.

14. At page 64, line 4 through page 67, line 18; page 90, line 21 through page 91, line 13; page 97, lines 7-16; and page 101, lines 12-22, the request indicates the Requestor considers that Schad (U.S. Patent 4,422,995) raises a substantial new question of patentability with respect to claims 1 and 6-8 of Sorensen.

Schad **does not** raise a substantial new question of patentability with respect to claims 1 and 6-8 of Sorensen. In the prosecution of application Serial No. 07/386,012, which matured into the Sorensen patent, Schad was used to reject all the claims (1-10) under 35 USC 103(a). The rejection over Schad was overcome and the Sorensen patent was allowed after applicant amended steps (h) and (i) of claim 1 so as to recite the injection of first/second plastic material until it reaches the portion of the first/second

Application/Control Number: 90/008,775
Art Unit: 3991

Page 11

mold cavity that defines the rim of the product. Third party requestor even admits at page 66, lines 16-18, of the request that "Schad does not specifically disclose a first injection material which 'reaches the portion of the mold cavity that defines the rim of the product.'" Third party requestor cites *KSR int'l Co. v. Teleflex Inc.* and design choice for the obviousness of modifying Schad so that a first injection material reaches the portion of the mold cavity that defines the rim of the product (Request, pages 66-67). Third party requestor notes that "design choice" with respect to product shape was considered by the Examiner in the rejection over Schad that was mailed 10/11/1988 during prosecution of the 07/386,012 application (see page 67 of the Request). Consideration of Shad in view of *KSR int'l Co. v. Teleflex Inc.* or "design choice" does not provide any new teaching with respect to Schad as compared with its use in the prosecution of the Sorensen patent. Accordingly, Schad is not being viewed in a new light compared with its use in the prosecution of the Sorensen patent, and thus, does not raise a substantial new question of patentability with respect to claims 1 and 6-8 of Sorensen.

15. The request indicates the Requestor considers that Schad in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability with respect to claims 1 and 6-8 of Sorensen.

It is agreed that consideration of Schad in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claims 1 and 6-8 of Sorensen. Page 67, lines 19 through the last line on page 69; page 91, line 14

Application/Control Number: 90/008,775
Art Unit: 3991

Page 12

through page 92, line 8; page 97, line 17 through page 98, line 5; and page 102, lines 1-15, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Schad, Moscicki, Seima and Shiho that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1 and 6-8 of Sorensen were patentable. Accordingly, Schad in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claims 1 and 6-8, which question has not been decided in a previous examination of the Sorensen patent.

16. The request indicates the Requestor considers that Toyota in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability with respect to claim 1 of Sorensen.

It is agreed that consideration of Toyota in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claim 1 of Sorensen. Page 71, line 9 through page 73, line 9, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Toyota, Moscicki, Seima and Shiho that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claim 1 Sorensen was patentable. Accordingly, Toyota in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claim

Application/Control Number: 90/008,775
Art Unit: 3991

Page 13

1, which question has not been decided in a previous examination of the Sorensen patent.

17. The request indicates the Requestor considers that Echterholter in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability with respect to claim 1 of Sorensen.

It is agreed that consideration of Echterholter in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claim 1 of Sorensen. Page 74, line 18 through the last line on page 76, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Echterholter, Moscicki, Seima and Shiho that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claim 1 Sorensen was patentable. Accordingly, Echterholter in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claim 1, which question has not been decided in a previous examination of the Sorensen patent.

18. The request indicates the Requestor considers that Modern Plastics in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability with respect to claims 1, 6 and 8 of Sorensen.

Application/Control Number: 90/008,775
Art Unit: 3991

Page 14

It is agreed that consideration of Modern Plastics in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claims 1, 6 and 8 of Sorensen. Page 78, line 9 through page 80, line 9; page 93, lines 13-25; and page 103, lines 12-24, of the request for reexamination are hereby incorporated by reference for their explanation of the teaching provided in Modern Plastics, Moscicki, Seima and Shiho that was not present in the prosecution of the application which became the Sorensen patent. There is a substantial likelihood that a reasonable examiner would consider this teaching important in deciding whether or not claims 1, 6 and 8 of Sorensen were patentable. Accordingly, Modern Plastics in view of Moscicki and further in view of Seima and Shiho raises a substantial new question of patentability as to claims 1, 6 and 8, which question has not been decided in a previous examination of the Sorensen patent.

Duty to Disclose

19. The patent owner is reminded of the continuing responsibility under 37 CFR 1.565(a) to apprise the Office of any litigation activity, or other prior or concurrent proceeding, involving Patent No. 4,935,184 throughout the course of this reexamination proceeding. The third party requestor is also reminded of the ability to similarly apprise the Office of any such activity or proceeding throughout the course of this reexamination proceeding. See MPEP §§ 2207, 2282 and 2286.

Correspondence

14. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alan Diamond whose telephone number is (571) 272-1338. The examiner can normally be reached on Monday through Friday from 5:30 a.m. to 2:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on (571) 272-1535.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Notice Re Patent Owner's Correspondence Address

Effective May 16, 2007, 37 CFR 1.33(c) has been revised to provide that:

The patent owner's correspondence address for all communications in an *ex parte* reexamination or an *inter partes* reexamination is designated as the correspondence address of the patent.

Revisions and Technical Corrections Affecting Requirements for Ex Parte and Inter Partes Reexamination, 72 FR 18892 (April 16, 2007)(Final Rule)

The correspondence address for any pending reexamination proceeding not having the same correspondence address as that of the patent is, by way of this

Application/Control Number: 90/008,775
Art Unit: 3991

Page 16

revision to 37 CFR 1.33(c), automatically changed to that of the patent file as of the effective date.

This change is effective for any reexamination proceeding which is pending before the Office as of May 16, 2007, including the present reexamination proceeding, and to any reexamination proceeding which is filed after that date.

Parties are to take this change into account when filing papers, and direct communications accordingly.

In the event the patent owner's correspondence address listed in the papers (record) for the present proceeding is different from the correspondence address of the patent, it is strongly encouraged that the patent owner affirmatively file a Notification of Change of Correspondence Address in the reexamination proceeding and/or the patent (depending on which address patent owner desires), to conform the address of the proceeding with that of the patent and to clarify the record as to which address should be used for correspondence.

ORDER:

(1) DENYING PLAINTIFF'S MOTION FOR RECONSIDERATION OF DENIAL OF OBJECTIONS TO MAGISTRATE JUDGE'S ORDER OF APRIL 9, 2007 AS MOOT [Doc. # 163];

(2) GRANTING DEFENDANTS' MOTION FOR RECONSIDERATION OF THE COURT'S JUNE. 20, 2007 ORDER RE BIFURCATION [Doc. # 171];

(3) GRANTING IN PART AND DENYING IN PART DEFENDANTS' MOTION TO STAY [Doc. # 178];

and

(4) DENYING PLAINTIFF'S MOTION FOR PARTIAL SUMMARY JUDGMENT AS PRE-

MATURE [Doc. # 204]

BARRY TED MOSKOWITZ, United States District Judge.

I. Motion for Reconsideration of Denial of Objections to Magistrate Judge's Order

*1 On April 9, 2007, Magistrate Judge Bencivengo issued an order in which she granted in part and denied in part Plaintiff's motion to compel further responses to discovery. In accordance with 28 U.S.C. § 636(b)(1)(A) and Fed.R.Civ.P. 72(a), Plaintiff filed an objection to that ruling, arguing that it was both clearly erroneous and contrary to law. In an order entered June 14, 2007, the Court overruled Plaintiff's objection without prejudice. The Court found that the Magistrate Judge's determinations regarding the Black & Decker Defendants' waiver of the attorney-client privilege, and the applicability of Patent Local Rule 2.5(d), were neither clearly erroneous nor contrary to law, on the record before the Court. However, the Court was unable to determine at that time whether, and to what extent, the Black & Decker Defendants ("B & D") intended to rely upon the death of Dennis Dearing to provide the requisite showing of prejudice in support of any laches and/or equitable estoppel defenses. Therefore, Plaintiff was granted leave to serve an interrogatory upon B & D, which stated: "Set forth, in detail, all prejudice to Defendants that resulted from the death of Dennis Dearing in regard to this case." To the extent Plaintiff believed that B & D's response to the interrogatory indicated that this Court's determination regarding waiver of the attorney-client privilege was in error, it was invited to move for reconsideration of the decision at that time.

On July 11, 2007, B & D responded to Plaintiff's interrogatory setting forth the prejudice that resulted from the death of its former in-house counsel Dennis Dearing. The prejudice identified included the inability to have Mr. Dearing testify regarding his communications in the mid-1990s pertaining to

Slip Copy
 Slip Copy, 2007 WL 2696590 (S.D.Cal.)
 (Cite as: Slip Copy)

Page 2

Mr. Jens Ole Sorensen's claims of infringement of the 184 Patent. These communications included discussions directly with Mr. Sorensen and his representatives, as well as with John Schiech, Black & Decker's business manager responsible for making all decisions concerning the matter. B & D also indicated that it was prejudiced because it could not present Mr. Dearing as a witness to defend against Plaintiff's charge of willful infringement.

On July 12, 2007, Plaintiff filed the present motion to reconsider this Court's previous ruling on the basis of the new evidence presented in B & D's interrogatory response. The motion was calendared for hearing, without oral argument, on August 10, 2007. However, while the motion was pending, Magistrate Judge Bencivengo reconsidered her earlier ruling in light of B & D's interrogatory response. On August 3, 2007, Judge Bencivengo issued her "Order Following Discovery Conference on July 26, 2007" in which she ruled:

Since the defendant is affirmatively relying upon the death of Mr. Dearing to support its defense of laches, the plaintiff is entitled to review Mr. Dearing's files that still exist and reflect his personal thoughts and impressions, so plaintiff may respond to defendant's claim of lost evidence. Defendant was therefore ordered to produce any withheld documents reflecting Mr. Dearing's work product on this matter.

*2 [Doc. # 177 at ¶ 8.] Judge Bencivengo stayed production of Mr. Dearing's work product for 30 days in order to give B & D an opportunity to appeal the order. B & D has just taken that opportunity and filed a motion for reconsideration on September 4, 2007 [Doc. # 240]. B & D's motion is calendared for hearing by this Court on November 2, 2007.

In light of Judge Bencivengo's more recent order requiring production of Mr. Dearing's privileged documents, and the now-pending motion for reconsideration of that order, the Court finds moot Plaintiff's motion for reconsideration of its previous order overruling Plaintiff's objection to Judge Bencivengo's April 9, 2007 order. The Court finds that

this entire issue will be addressed, upon a complete and updated record that includes Judge Bencivengo's August 3, 2007 order, in the Court's forthcoming decision on B & D's pending motion for reconsideration. Accordingly, Plaintiff's motion is **DENIED** without prejudice as moot.

II. Motion for Reconsideration of Bifurcation

On June 13, 2007, the Court held a hearing on B & D's motion for summary judgment of laches. The Court denied B & D's motion at that hearing and discussion then ensued over the possibility of setting an expedited bench trial on B & D's equitable defenses of laches and estoppel. At B & D's urging, the Court and the parties agreed to schedule this bench trial beginning on December 17, 2007. In a June 20, 2007 written order confirming the Court's decision from the June 13 hearing, the Court explained that the trial of equitable defenses could be bifurcated from the rest of the trial proceedings relating to infringement. [Doc. # 147 at 2-3.] Citing the Ninth Circuit case of *Danjaq LLC v. Sony Corp.*, 263 F.3d 942 (9th Cir.2001), the Court explained that, in deciding these equitable defenses, it would need to determine whether there has been any showing of willful infringement on the part of Defendants that would act as a "counterdefense" to laches. The Court invited any party to make a motion for reconsideration of the decision to bifurcate the equitable portion of the trial if they felt that the Court's determination of the willfulness issue presented a problem for any subsequent jury trial proceedings.

On July 20, 2007, B & D accepted the Court's invitation and filed a motion for reconsideration of bifurcation. [Doc. # 171.] B & D explained that it had not appreciated that the Court itself would need to make a finding on willfulness, without the aid of a jury, in any bifurcated trial on equitable defenses. In light of this realization, and its desire to retain its full rights to a jury determination on willfulness, B & D withdrew its request for an expedited bench trial on its equitable defenses.

Plaintiff has opposed B & D's motion for reconsid-

Slip Copy
 Slip Copy, 2007 WL 2696590 (S.D.Cal.)
 (Cite as: Slip Copy)

Page 3

eration arguing that there is no authority establishing any right to a jury trial on willfulness and, to the extent such a right exists, B & D has waived its rights by continually requesting that the Court schedule a short bench trial on laches before proceeding with the rest of the action.

*3 The Court finds that the right to a jury trial on willfulness exists in a patent action that will be tried to a jury. *See, e.g., Richardson v. Suzuki Motor Co.*, 886 F.2d 1226, 1250 (Fed.Cir.1989). Having considered the submissions of the parties and the record of these proceedings, the Court does not find that B & D has knowingly waived its right to a jury trial on willfulness. Moreover, the early bifurcated trial on equitable defenses was scheduled by this Court in an effort to accommodate B & D's request for an early determination of laches, which it argued, if found, would greatly expedite the conclusion of this matter. Having recognized that a laches determination requires that this Court determine, before any jury has considered the question, whether Defendants willfully infringed Plaintiff's patent, B & D has withdrawn its request. The Court sees no reason to push ahead with a bifurcated trial despite B & D's express wishes.

The Court's recognition of the practical ramifications of the intertwining of willfulness in any laches determination was the impetus for the Court's invitation to reconsider in its June 20, 2007 order. Having considered B & D's submission, which was based upon the exact issues identified in this Court's own order, the Court hereby **GRANTS** B & D's motion. The bifurcated bench trial on equitable defenses previously scheduled for December 17, 2007 is hereby **VACATED**, along with all pretrial proceedings associated with it, including the November 26, 2007 pretrial conference.

III. Motion to Stay Litigation Pending Reexamination

On August 3, 2007, all Defendants jointly filed a motion for a stay of these proceedings. Defendants' motion is based on B & D's pending request for reexamination of Plaintiff's 184 Patent, which was

filed with the U.S. Patent and Trademark Office ("PTO") on July 30, 2007. The request for reexamination challenges, *inter alia*, all 5 claims of the 184 Patent that are asserted in the present litigation. The challenge is based on a number of prior art references, almost all of which were apparently not considered by the PTO in the prosecution of the 184 Patent.

Courts have inherent power to stay an action pending conclusion of PTO reexamination proceedings. *Ethicon, Inc. v. Quigg*, 849 F.2d 1422, 1426-27 (Fed.Cir.1988). The decision whether to grant or deny a motion to stay proceedings pending PTO reexamination rests within the sound discretion of the court. *See, e.g., Photoflex Products, Inc. v. Circa 3 LLC*, No. C 04-03715 JSW, 2006 U.S. Dist. LEXIS 37743, at *2-3 (N.D.Cal. May 24, 2006). There is a "liberal policy" in favor of granting motions to stay pending the outcome of PTO reexamination proceedings. *ASCII Corp. v. STD Entertainment USA, Inc.*, 844 F.Supp. 1378, 1381 (N.D.Cal.1994).

In determining whether to stay litigation pending reexamination by the PTO, courts generally consider the following factors: (1) the stage of litigation, i.e., whether discovery is almost complete and whether a trial date has been set; (2) whether a stay would cause undue prejudice or present a clear disadvantage to the non-moving party; and (3) whether a stay will simplify the issues in question and trial of the case. *See, e.g., Verox Corp. v. 3Com Corp.*, 69 F.Supp.2d 404, 406 (W.D.N.Y.1999).

*4 The Court finds that this litigation has not proceeded so far that it would be unjust to stay the action. Although this action was originally filed about a year ago, and the Court recognizes that substantial amounts of discovery have already occurred, the more relevant inquiry is whether discovery is nearing completion—it is not.^{FNI} For instance, Magistrate Judge Bencivengo recently granted the parties permission to take an additional 10 depositions per side. [See Doc. # 159 at 2.] No deadline for the completion of fact discovery has even been set. Moreover, the parties are just beginning to brief

Slip Copy

 (Cite as: Slip Copy)

Page 4

the preliminary issue of claim construction and, in accordance with the decision above to vacate the bifurcated bench trial on equitable defenses, no trial date is currently set for any aspect of this case. In addition, while the Court has already considered two motions for summary judgment, it previously put off consideration of two others until after claim construction, and Plaintiff has just filed a substantial summary judgment motion aimed at piercing Black & Decker's corporate veil. The Court anticipates that further summary judgment motions regarding infringement and patent validity will be filed once claim construction is complete. Thus, a substantial amount of resources will be employed by all parties and the Court even in advance of any eventual trial. *See, e.g., Broadcast Innovation, L.L.C. v. Charter Communications, Inc.*, No. 03-cv-2223-ABJ-BNB, 2006 U.S. Dist. LEXIS 46623, at *26-31 (D.Colo. July 11, 2006) (granting stay, in part, because of significant work remaining on motions for summary judgment, even though trial date was less than three months away).

FNL. In reaching this determination, the Court has considered the surreply submitted by Plaintiff and, therefore, the pending ex parte request to file a surreply [Doc. # 201] is **GRANTED**.

Plaintiff claims Defendants delayed filing their request for reexamination to gain a tactical advantage over it. He claims that Defendants were aware of the prior art that they reference in their reexamination request over seven months ago, but purposely delayed so that the 184 Patent would expire during the reexamination process, thereby precluding Plaintiff from offering any amendments to the claims. Defendants respond that there was no intentional delay and that their decision to request reexamination was based, in part, on the Supreme Court decision in KSR International Co. v. Teleflex Inc., --U.S. ---, 127 S.Ct. 1727, 167 L.Ed.2d 705 (2007), which was only issued at the end of April. The Court is not convinced that Defendants employed any improper tactics in filing their request for reexamination. While Plaintiff is rightfully concerned that a reexamination in the twilight of his

patent puts him at a distinct disadvantage, he could have prevented this situation by filing suit many years ago, thereby allowing sufficient time for any reexamination to occur before the patent expired.

Therefore, Plaintiff's cognizable claims of prejudice if a stay should be entered basically boil down to his inconvenience in delaying final collection of any monetary award of royalties, assuming he ultimately wins. However, as the court recognized in *Broadcast*, the prejudice factor "is best summarized by one question: *do the Plaintiffs have an adequate remedy at law?*" 2006 U.S. Dist. LEXIS 46623, at *32. Just as in *Broadcast*, the answer here is that clearly Plaintiff does have an adequate remedy. Defendants point out, and Plaintiff has not disputed, that the 184 Patent will expire in February 2008 independent of reexamination. Given that a trial on the merits could not occur prior to that date, Plaintiff would not have been granted any injunctive relief by this Court. Therefore, his claim would be restricted to past monetary damages, which, with the addition of prejudgment interest, are fully capable of compensating Plaintiff. Unfortunately, reexamination can be a drawn out process, resulting in a significant delay in court proceedings. Protracted delay is always a risk inherent in granting a stay, yet courts continue to stay actions pending reexamination. The general prejudice of having to wait for resolution is not a persuasive reason to deny the motion for stay. An average delay for reexamination of approximately 18-23 months is especially inconsequential where Plaintiff himself waited as many as twelve years before bringing the present litigation. (*See* PTO Reexamination Statistics at Ex. B to Niro Decl.; Doc. # 180-3.)

*5 In addition, the Federal Circuit has recently confirmed that the PTO would not be bound in its reexamination by the determinations of this Court. *In re Trans Texas Holdings Corp.*, 2006-1599 and 2006-1600, 2007 U.S.App. LEXIS 19909, at *14-19 (Fed.Cir. Aug. 22, 2007). Because of this, the Court finds that not only is Plaintiff unlikely to be prejudiced in these proceedings by a stay pending the PTO reexamination, but Defendants would potentially be prejudiced by *failing* to enter a

Slip Copy
 Slip Copy, 2007 WL 2696590 (S.D.Cal.)
 (Cite as: Slip Copy)

Page 5

stay. One court has explained this possibility accordingly:

Not only could the Court and the PTO reach conflicting determinations, but one possible scenario could result in irreparable harm to [Defendant]: if this Court finds that the [patent] is not invalid and that [Defendant] has infringed it, and orders [Defendant] to pay damages to [Plaintiff] for such infringement, then [Defendant] would have no ability to recover those damages if at a later date the PTO determined that the [] patent is invalid.

Bausch & Lomb, Inc. v. Alcon Lab., Inc., 914 F.Supp. 951, 952 (W.D.N.Y.1996). The Court finds such a possibility to be, at a minimum, a highly undesirable outcome.

Finally, the Court finds that the stay will result in the simplification of issues in this case. As explained by the Federal Circuit, "[o]ne purpose of the reexamination procedure is to eliminate trial of [the issue of patent claim validity] (when the claim is canceled) or to facilitate trial of that issue by providing the district court with the expert view of the PTO (when a claim survives the reexamination proceeding)." Gould v. Control Laser Corp., 705 F.2d 1340, 1342 (Fed.Cir.1983), cert. denied, 464 U.S. 935, 104 S.Ct. 343, 78 L.Ed.2d 310 (1983). The *Broadcast* court, elaborating on this point, explained:

Shifting the patent validity issue to the PTO has many advantages, including:

1. All prior art presented to the Court will have been first considered by the PTO, with its particular expertise.
2. Many discovery problems relating to prior art can be alleviated by the PTO examination.
3. In those cases resulting in effective invalidity of the patent, the suit will likely be dismissed.
4. The outcome of the reexamination may encourage a settlement without the further use of the Court.
5. The record of reexamination would likely be entered at trial, thereby reducing the complexity and length of the litigation.
6. Issues, defenses, and evidence will be more easily limited in final pretrial conferences after a reex-

amination.

7. The cost will likely be reduced both for the parties and the Court.

2006 U.S. Dist. LEXIS 46623, at *9-10 (quoting Emhart Indus., Inc. v. Sankyo Seiki Mfg. Co., 3 U.S.P.Q.2d 1889, 1890 (N.D.Ill.1987)).

The Court believes that it will benefit from the PTO's evaluation of how the previously unconsidered prior art references impact the claims of the patent-in-suit. The PTO's expert evaluation is likely to be of assistance not only as to the issues of validity, but its understanding of the claims is also likely to aid this Court in the preliminary process of claim construction.

*6 The Court finds that, especially in this case, the reexamination process has the potential to significantly narrow the issues for trial because of the impending expiration of the 184 Patent. While the parties have argued at length about exactly how this additional variable affects the calculation of the likely outcome of reexamination, the Court need not resolve this dispute to reach the proper conclusion. It is enough to note that when reexamination is requested by a third party, as in this case, all claims are confirmed only 29% of the time. (See PTO Reexamination Statistics at Ex. B to Niro Decl.; Doc. # 180-3.) Since no amendments can be offered to an expired patent, there is obviously a significant likelihood that the validity of the claims at issue in this action will be affected by the reexamination process.^{FN2}

^{FN2} Plaintiff has argued that the PTO is unlikely to grant reexamination precisely because the 184 Patent will expire soon. However, Plaintiff failed to produce any evidence to support this contention. Moreover, even if Plaintiff is correct, and the PTO fails to grant reexamination (a decision which should issue no later than October 30, 2007), this Court would immediately lift the stay and these proceedings would continue-a relatively insignificant 2-month delay being all that would result.

Slip Copy
 Slip Copy, 2007 WL 2696590 (S.D.Cal.)
 (Cite as: Slip Copy)

Page 6

In addition, the Court expects that the reexamination process will not only aid the Court in these proceedings, but should also redound to the benefit of the parties, both Defendants and Plaintiff. As the *Broadcast* court explained in its discussion of the possibility of prejudice from entering a stay:

If the PTO does not invalidate or otherwise alter the claims of the [] patent, the Plaintiffs' legal remedy remains unaffected Moreover, if the claims are narrowed, both sets of parties will have benefitted by avoiding the needless waste of resources before this Court, and again, the Plaintiffs will be able to pursue their claim for money damages at trial. Finally, if the claims are strengthened, the Plaintiffs' position will be as well, and their likelihood of monetary damages will increase. *See, e.g., Motson*, 2005 U.S. Dist. LEXIS, 2005 WL 3465664 at *1 (“[I]f the PTO upholds the validity of plaintiff's patent, ‘the plaintiff's rights will only be strengthened, as the challenger's burden of proof becomes more difficult to sustain.’”) (quoting *Pegasus Dev. Corp.*, 2003 U.S. Dist. LEXIS 8052, 2003 WL 21105073 at *2).

2006 U.S. Dist. LEXIS 46623, at *32-33. Accordingly, the Court finds that a stay is appropriate to avoid the risk of unnecessary litigation and to permit the clarification of issues before this Court.

Therefore, Defendants' motion to stay this litigation is **GRANTED IN PART** and **DENIED IN PART**. With the exception of two pending motions, all proceedings are hereby stayed pending the PTO's reexamination of the 184 Patent. The Court will continue to hear Plaintiff's pending motion for entry of default against Defendant Porter-Cable Corporation [Doc. # 182], which is calendared for hearing on October 12, 2007. As was discussed above in Section I, the Court will also continue to hear B & D's pending motion for reconsideration of Magistrate Judge Bencivengo's August 3, 2007 order regarding production of Dennis Dearing's attorney work product [Doc. # 240], which is calendared for hearing on November 2, 2007. The Clerk is directed to **VACATE** all scheduled discovery hearings, as well as the claim construction hearing previously set for November 19, 2007. All hearing

dates will be reset, to the extent appropriate, once the stay of these proceedings has been lifted.

*7 Defendants are ordered to file a notice informing the Court of the PTO's decision on the pending application for reexamination within 10 days of receipt of such decision. If the PTO declines B & D's request to reexamine the 184 Patent, the Court will immediately lift the stay and recalendar all vacated hearing dates. If, however, the PTO approves reexamination, this stay will remain in place pending some resolution of those proceedings. During the pendency of the reexamination, Defendants will be required to file a notice every 6 months apprising the Court of any change in the status of those proceedings.

IV. Motion for Partial Summary Judgment

On August 30, 2007, Plaintiff filed a motion for partial summary judgment piercing the corporate veils of the Black & Decker Defendants, or in the alternative, holding them to be a single enterprise for purposes of patent infringement liability. [Doc. # 204.] The motion is presently calendared for hearing on October 26, 2007. In light of the Court's entry of a stay of these proceedings pending the PTO patent reexamination, the Court finds Plaintiff's motion to be premature. Accordingly, the Court hereby **DENIES** Plaintiff's motion without prejudice.^{FN3} As the Court is aware of the substantial volume of Plaintiff's motion, he is invited to refile this motion once the stay has been lifted by simply filing a short notice of motion which incorporates by reference his earlier filing.

^{FN3} Plaintiff's pending motion to file confidential documents under seal in support of the motion for partial summary judgment [Doc. # 204-5] is also **DENIED** as moot.

IT IS SO ORDERED.
